

Pfeiffer University Residence Hall Rooms and Amenities

Furniture

Your residence hall room is furnished with standard furniture (single bed, chest of drawers, desk, chair and wardrobe or closet). Some areas may have bunk beds due to the room configuration, but specific requests for bunk beds can not be accommodated.

REMINDER: There will be no furniture removals allowed this year.

Phone Service

The University provides access to telephone service for all residential students. Each room is equipped with one modular phone jack. Students must provide their own touch-tone phone. Local phone service is free; long distance service is available through the University Telecommunications Office.

Cable Service

The University provides basic cable television service. Each room is equipped with one jack; students must provide their own connection cables. Premium channels are available through the local cable company.

Internet Access

Direct Internet access from your room is available. You will need a network card for your computer. Review specific details on the Internet Access insert in the housing packet.

Other Items of Interest

- Most residential rooms are painted antique white (Painting of rooms by students is not permitted).
- Area rugs ranging from 2'x3' to 4'x5' would be suitable for most rooms. All room sizes are approximate; actual sizes vary.

The following page contains a listing of all the Pfeiffer University Residence Hall amenities.
